TRAIN OF FLOUR IS SPEEDING WEST

Twenty-eight Carloads Leave Green River Today. Bound for Famine Stricksn Orient.

GATHERED IN MINNEAPOLIS.

Donations of Food by Local Parties Will be Forwarded on a Later Train.

A trainload of flour, consisting of 28 cars of the life-preserving cereal product, is now speeding its way across the continent for the relief of the famine stricken people of China. Started on its way from Minneapolis by the generosity of the Northwestern railroad expressed by its president Marvin Hughitt, the train has safely made its way across mountain and plain until today it has arrived at Green River station in Wyoming.

The train is making fast freigt time and is handled by a special craw equipment west of Omaha tarmished by the Harriman system. No stops will be made except for taking on water and supplies. The unexpected blocking of the Aspen tunnel made it necessary to detour the train by way of McCammon, and thence to Ogden and west over the Southren Pacific, but this only hindered the progress of the train for a matter of about ten hours. The departure from Green River is scheduled to take place at noon today, and the flour will, according to present calumations, pass through Ogden on its way west tomorrow. The special transport Beaufort, furnished by the government to take the flour on at San Francisco and carry it over the Pacific to the starving matives of China, will leave that port on April 30th. The train is making fast freigt time

April 30th.

Meanwhile the flour donated by the church and millers of this city is being gathered up, and will be sent forward in due time. WILL RESUME TRAFFIC TODAY.

Landside at Aspen Tunnel Practically

Cleared of Debris. According to all calculations, the track in front of the Aspen tunnel in Wyoming will be cleared for traffic today. General Supt. Buckingham of the Short Line came in from San Francisco yesterday and proceeded at once to the scene of the landslide, while Vice President and General Manager Bancroft and Asst. General Supt. J. M. Davis were already on the spot, directing the cleaning up operations. All passenger trains have been detoured via McCammon and Granger, but no freight has been moved east or west since the cavelin. All the sidetracks in the vicinity been moved east or west since the exter-in. All the sidetracks in the vicinity of Aspen are being filled with loaded cars, and a freight blockade of con-siderable dimensions has been created which will take some little time to get It is expected the debris will all b cleared away so that regular traffic may be resumed this afternoon, how-

STREETCAR MEETING.

Manager Wells Explains Position of Company to Arbitration Committee.

The arbitration committee of the Utal rederation of Labor consisting of Danies. Elton and J. E. Edward, waited on Manager Joseph S. Wells of the Utah Light & Rallway company yesterday afternoon, with a view to such a presentatermoon, with a view to such a presentation of the case of the street car employes as might result in allowing the
tish advance is wages asked for by inemen, as well at, it possible, it recognition of the union and an agreement to
subtrist questions or dinerence between
the men and the company to a board of
riptiration. The last two were not so essecurity insisted upon; out upon the mater of wage increase, the committee last
impinus, as it was alleged that with
resent cost of living, the present schiltie made it difficult for the men to make
fids meet.

the made it difficult for the mea to make note meet.

Manager Wells quietly, but firmly, declined to grant the request, as ne excitatined that the present resources of the company did not warrant it. With no livingtons being paid, and an enormous authay of runos imminent for repairs, reconstruction, building and new cars, the company was not in a position to dayance wages beyond the present standard. Moreover, wages mere are higher than in many their western diffes excepting, of course, butter and san Francisco, waste exceptionally abnormal conditions obtain, and which can not be compared with conditions elsewhere. The conference did not essent in any change of the situation.

Mr. Eston was seen this moon, by a News' reporter, and he said, as indicated above, that the matters of arbitrator and recognition of the union would be for the present waived, but the matter it wages was held the primary thing on account of the cost of hving in this city. The situation would be discussed at a necting tonigth, of the arbitration committee of the Federation of Labor, and after at the next meeting of the Carner's local; but he did not think there would be any strike, or trouble of any sind, and that the whole question could and would be adjusted in a manner satisfactory to both sides.

and would be adjusted in a manner satisractory to both sides.

The present scale of wages is: 22½
cents an hour for the first year of service. 25 cents an hour for ensuing years
up to the fifth, and 27½ cents an hour
for every year thereafter. The scale of
wages which the men want is: 25 cents
an hour for the first year and 33 cents
an hour for every year thereafter.

In conversation this morales, one of
the officials of the company said that
"The men are now receiving \$57.50 to
\$2.50 per month, as they work every day,
and during the rush of the lake season,
when extra hours are worked, some of
the men make as high as \$125 per month.
There are many clerks in the stores who
work for \$10 and \$50 per month, and yet
are able to support families; and if they
can do this, why can not the carmen
with their present wages? There is no
disposition on either side to get excited,
and there are no indications visible of
any suggestions of trouble.

GOLDFIELD LABOR SITUATION UNCHANGED.

Goldfield, Nev., April 12.—The labor question remains unchanged. For two days he move has been made toward another joint conference of the contending forces. The mine owners have the situation in hand better now than at any time during the trouble, and are busy tying up the few remaining huainess houses who are employing industrial Workers of the World. With the husiness man and Mine Owners' association all the principal towns of Nevada are co-operating with the local businessmen's commission and are refusing to sell goods to merchants and restaurants who have persisted in employing industrial Workers. They are few in number. The object in forcing into line is to put them on the same footing when the mines are re-opened, so there may be no loycotts caused by connection with the anti-industrial Workers of the World movement.

TWO INFANTS IN DIVORCE COURT

Sad Story of a Couple Who Were Married at a Tender

MOTHER-IN-LAW IN EVIDENCE.

Herman A. Kramer Comes Home and Finds Wife's Mother Occupying His Bed and Board.

The marital troubles of two children tho were married at the tender age of years were aired in Judge Morse's cour oday when the divorce case of Selina May Reiser Kramer against Herman A Kramer was heard. Mrs. Krame charges her young husband with oruelty. She complained that he treated her with indifference around their home and was at times harsh with her. She stated on the witness stand today that her husband became very angry at her because she refused to give nim coffee for dinner for the reason that she thought it was injurious to his health. It also appears that the wife's mother

ween the young couple. On one oceasion Kramer asked his wife to accompany him out to the park in the evening. She refued to go, so he went alone. Upon his return he found his mother-in-law occupying his place in the bed and she refused to vacate in his favor. On one occasion he vacate in his favor. On one occasion he turned around very suddenly while his wife was embracing him and she was thrown to the floor. This she thought was a very cruel demonstration on his part. They quarreled over trilling affairs and the mother-in-law would interfere in her daughter's behalf and on one occasion she declared that they would never get along together because of different religious beliefs.

They were married in May, 1904, and lived together until Feb. 22, 1305. They are now just 20 years of age and have a child nearly three years old. The evidence in the case was not concluded this morning and the matter went over until next Wednesday, when it will probably be decided.
